Bluetooth Pocket Scanner

PF680BT · PL680BT Linear Imager Series

The ruggedized Bluetooth pocket scanner for enterprise applications

Powered by Innovative FuzzyScan 3.0 Imaging Technology and the latest Bluetooth v 4.0 cordless technology, the rugged yet compact Cino Bluetooth pocket scanner series marries impressive design and leading-edge technologies with industrial class reliability and functionality. It provides an optimum solution for mobile barcode scanning and data collection. It is more than hardware, it is a solution which you can count on to gain the exceptional ROI and TCO.

cino[®]

The latest Bluetooth v4.0 wireless technology adopted

Smart Cradle provides a plug-and-play cordless migration with more than 100m communication coverage

Support multiple connections up to 7 scanners in PICO mode

Bluetooth HID and SPP profiles supported to connect with most Bluetooth-enabled hosts

Compatible with the most popular iOS and Android devices

Compact, light-weight, ergonomic and easy-carrying form factor

High Reliability for Low TCO

Cino Bluetooth pocket scanner is designed to meet **IP65** rating which can totally protect against particle and liquid ingress. The over-mold design creates a robust protective shell around the device. This enables it withstand multiple drops from **1.8 meter** onto concrete. It also supports wide and flexible operating and storage temperature range. The cradle contact pin is with durability over **1,000,000** times. These features make Cino pocket scanner survive from any kind of harsh environment.

Ultimate Portability

Cino Bluetooth pocket scanner series is constructed compactly which fits into your hand for single-handed operation perfectly. It can be put into your pocket or purse for easy-carrying no matter you are indoor or outside. Moreover, you can wear it around your neck or wrist with lanyard for accessing to it conveniently.

IIP65 rating well protects against particle and liquid

Rugged construction withstands multiple drops from 1.8 meter onto concrete

Integrated one big trigger key and two function keys for ease of use

Over 80,000 EAN-13 scans of memory storage for batch scanning

High Reliability for Low TCO

Cino Bluetooth pocket scanner is designed to meet **IP65** rating which can totally protect against particle and liquid ingress. The over-mold design creates a robust protective shell around the device. This enables it withstand multiple drops from **1.8 meter** onto concrete. It also supports wide and flexible operating and storage temperature range. The cradle contact pin is with durability over **1,000,000** times. These features make Cino pocket scanner survive from any kind of harsh environment.

Ultimate Portability

Cino Bluetooth pocket scanner series is constructed compactly which fits into your hand for single-handed operation perfectly. It can be put into your pocket or purse for easy-carrying no matter you are indoor or outside. Moreover, you can wear it around your neck or wrist with lanyard for accessing to it conveniently.

IIP65 rating well protects against particle and liquid

Rugged construction withstands multiple drops from 1.8 meter onto concrete

Integrated one big trigger key and two function keys for ease of use

Over 80,000 EAN-13 scans of memory storage for batch scanning

Maximize Worker's Comfort

Cino Bluetooth pocket scanner's holding grip matches the contour of worker's hand and its scan angle is specially designed to meet human factors engineering. The ergonomic design will minimize worker's fatigue, allowing extended use for scan intensive operation.

Ergonomic Outer Shell

Rugged and Durable

Compact Form Factor

Out-of-range scanning and auto-reconnection features

Efficient power management supports more than 40,000 scans on a single full charge

Outstanding reading capability on 3 mil barcode

Unparalleled reading ability on low contrast, smudged, poorly-printed or damaged barcodes

Linear imager model and laser imager model are available for choice

Charging through cradle or micro USB cable

Meet Today's Mainstream

Cino Bluetooth pocket scanner adopts Bluetooth v4.0, the latest Bluetooth wireless technology. It's completely backward compatible with previous Bluetooth versions and can be integrated with most of Bluetooth host devices seamlessly. Moreover, it comes with more enhancements, such as faster pairing speed, lower power consumption, higher transfer reliability, and less wireless interference.

Flexible Connectivity

Cino Bluetooth pocket scanner provides several radio link modes to communicate with most host devices. It not only can connect to non-Bluetooth hosts via working with smart cradle in PAIR and PICO modes, but also can connect with most of mobile devices, such as smartphones, tablets and notebooks running on Windows, Android or iOS, via HID or SPP mode. The newly-designed HID mode allows you to pair the scanner with mobile devices simply and quickly without entering the passkey.

Instant Cordless Migration

Cino Bluetooth pocket scanner can work with non-Bluetooth hosts, such as traditional desk top computer, through smart cradle in PAIR mode or PICO mode. This provides an instant plug-and-play cordless migration solution. In PICO mode, one smart cradle supports up to 7 scanners simultaneously. This can reduce the total IT infrastructure cost.

Bluetooth v 4.0 Technology

Several Radio Link Modes

Smart Cradle Solution

Streamline your Workflow

The Cino Bluetooth pocket scanner is equipped with one big trigger button and two function buttons. These two function buttons allow you to enter power-off, sleep mode quickly without scanning the command barcodes. For example, when you use the scanner to work with iOS device, you can switch between barcode scanning and iOS device's on-screen keyboard quickly by pressing the function button twice. The friendly usability allows you to switch to different operations easily.

Cost-saving Solution for Inventory Management

Besides online scanning operation, the batch scanning function allows the scanner to store over **80,000 EAN-13** barcode data. The unique quantity feature enables you to store the quantity information together with the scanned barcode data. Batch mode provides simple data collection function which is ideal for inventory application.

Superior Readability

Thanks to FuzzyScan 3.0 imaging technology, Cino Bluetooth pocket scanner is capable of reading low contrast, damaged, smudged, poorly-printed and laminated barcodes that are commonly found in the real world quickly and accurately. To meet the emerging mobile commerce application, it can read paper-based and electronic bar codes shown on LCD screen. This makes the whole scanning process more efficiently and extra handling cost will be minimized.

Outstanding Reading Performance

Built with the advanced FuzzyScan 3.0 imaging technology, Cino Bluetooth pocket scanner is capable of reading most popular 1D, Linear-stacked, PDF417, GS1 DataBar and Composite barcodes. It can read 13 mil UPC/EAN barcode up to 24" as well as 3 mil high density barcode.

User-friendly Function Keys

Batch Scanning

FuzzyScan 3.0 Technology

No Worry for Poor Barcodes

Target Markets and Applications

Cino Bluetooth pocket scanner provides you an ideal solution for your environment and application no matter you need bar code scanning at retail store, warehouse, distribution center, manufacturing plant, healthcare center or in the yard.

Transportation/Logistic

- Proof of delivery
- Vehicle tracking
- Boarding gate
- Mobile ticketing

Field Service

- Account management
- Installation and repair
- Asset checking

Warehouse

- Shipping and receiving
- Inventory management
- Order picking

Healthcare

- Pharmacy prescription
- Inventory management
- Counter service

Retail Applications

- Inventory Management
- Point of sale
- Returns processing
- Receiving and shipping
- Gift registry
- Mobile coupon program
- Document tracking

Hospitality

- Guest check-in
- Loyalty card sign-up

Manufacturing

- Inventory management
- Work-in-Process

Field Sales

- Order fulfillment
- Account management
- Merchandising

Un-interrupted Scanning

The high-capacity Li-ion rechargeable battery is adopted by Cino Bluetooth pocket scanner. It protects the environment by simply recharging the battery instead of buying new batteries. The fully-charged standard battery can last more than **40,000** scans. It guarantees beyond one full eight-hour shift, no worry for interruption. Higher capacity battery is available if extended working hours is required.

Flexible Installation

Thanks to the special designed mounting holes, the smart cradle can be flexibly linked together to form a multi-slot cradle by a small hard plate. You can get an instant multi-slot cradle solution without any extra investment and effort.

OPTIONAL ACCESSORIES

Battery Cover
(for 2300mAh)

Battery:
1150mAh
2300mAh

Smart Cradle
Charging Cradle

Cable:
USB
PS/2
RS232
Micro USB

Multi-slot Cradle Solution

Efficient Power Management

SPECIFICATIONS

Performance Characteristics		Communication Characteristics		User Environment	
Optical System	PL680BT: Laser Imaging Engine PF680BT: Linear Imaging Engine	RF Standard	Bluetooth v4.0	Drop Specifications	Withstand multiple 1.8m/6ft. drops to concrete
Print Contrast	20% minimum reflective difference	RF Frequency	Band 2.402~2.4830 GHz unlicensed ISM band	Environmental Sealing	IP65
Minimum Resolution	Typical 3 mil (Code 39, PCS 0.9)	Radio Link Modes	PAIR mode, PICO mode, SPP mode, HID mode	Operating Temperature	-10 °C to 50 °C (14 °F to 122 °F)
Reading Range *1	Up to 24 inches on 100% UPC/EAN symbols	Communication Range	More than 100 meters in open space when working with smart cradle, line of sight	Storage Temperature	-40 °C to 70 °C (-40 °F to 158 °F)
Light Source	PL680BT: 630nm visible red LED with laser aiming PF680BT: 630nm visible red LED	Supported Profiles	SPP, HID	Humidity	5% to 95% related humidity, non-condensing
Scan Rate	Dynamic scanning rate up to 500 scans per second	Supported Mobile OS	iOS (HID), Android (SPP & HID)	Ambient Light Immunity	0 ~ 100,000 lux
Operating Mode		Accessories		Available Configurations	
Pitch/Skew/Tilt	Trigger ± 65° / ± 65° / ± 55°	Supported Symbolologies		Smart Cradle	RF Standard : Bluetooth v4.0 Battery charging : Fast charge User Interfaces : 1 blue link indicator 2-color status indicator Beep, Paging/Reset button
Configuration Setup	Barcode command Windows utility - FuzzyScan PowerTool	1D Linear	Code 39, Code 39 Full ASCII, Code 32, Code 39 Trioptic Code 128, UCC/EAN-128, Codabar, Code 11, Code 93 Standard & Industrial 2 of 5, Interleaved & Matrix 2 of 5 German Postal Code, China Postal Code, IATA UPC/EAN/JAN, UPC/EAN/JAN with Addendum Telepen, MSI/Plessey & UK/Plessey GS1 DataBar (formerly RSS) Linear & Linear Stacked	Host Interface	: PS/2 (DOS/V) Keyboard Wedge, TTL RS232 Serial, USB HID, USB COM
Data Editing	Condensed DataWizard via bar code command Full feature DataWizard via FuzzyScan PowerTool DataWizard Premium via FuzzyScan PowerTool	Linear-stacked (PF688BT PL688BT)	PDF417, Micro PDF417, Codablock, Composite	Charging Cradle	Battery charging : Fast charge User Interface : 1 blue power indicator Host interface : USB
User Interfaces	2 function keys, one scan button 3 LEDs for power, link and status indication Programmable beeper Optional vibrator	Dimension	119.0 mm (L) x 49.0 mm (W) x 24/38 mm (D) 135g (battery included)	Interface Cables	PS/2 (DOS/V) Keyboard Wedge Cable RS232 Serial Cable USB Cable Micro USB Cable
